## Agile development tool :

- Allows direct creation or edit of report SQLs
- Automatic version control
- Parameters can be copied from existing reports or created on demand
- Allows use of existing LOVs or creation of new ones
- Flexible access control with various assignment levels
- Category assignments for report sorting
- Imports BI Publisher or Discoverer worksheet SQLs
- Supports multilingual, e.g. column headings
- Can be used as a direct data access tool instead of Toad or SQL Developer (increased audit control)
